Product specification

Modular wall outlet for the construction of a passive network infrastructure with the highest quality requirements. The junction box is suitable for connecting telephones up to 10 Gbit networks and power supply with PoE with up to 90W. The very robust, nickel-plated zinc die-cast module, which consists of only two parts, can be connected by the installer very easily and in a very short time without any special tools. In addition to the permanent quality control during production, independent test laboratories confirm the very good quality of the individual modules with various certificates. The wall outlets are supplied in retail-friendly, separable cardboard packaging with 10 pieces each.

- variants, mounting type: AP, UP, UPk, UP0
- variants, number of ports: 1, 2, 3
